

APCC is The Portuguese Contact Center Association. Founded in 2004, our mission is to achieve credibility, prestige and sustainable development for the Contact Center Industry in Portugal.

We bring together 112 Companies from the 12 Portuguese Economic Sectors (Banking, Certification and Consultancy, Commerce, Distribution, Energy, Equipment, Training, Outsourcing, Health, Insurance and Assistance, Technology and Telecommunications). Companies with activity related to the Sector, defending its prestige and disseminating good practices. Organizations that follow the same ethic code and share similar quality and value for service to their Customers.

Companies with an yearly turnover < 1,800,000 € (previous year)	630€ entry fee	900€ annual quota

Why do we exist?

APCC wants to gather all those who comply with the values defended by the Association. Members are Companies that seek the best service levels, with recognized and valued professionals, generating and promoting value for their shareholders, employees and customers. Over the past few years, the “Contact Center” market has undergone a very positive evolution. A careful reflection on this period made us identify 7 main reasons that justify the existence of the Portuguese Association of Contact Centers:

1. Because it is necessary to regulate and organize the Sector, to create more and better opportunities for credible Companies that want to invest and develop this market.
2. Because it is necessary to create a national powerful force, selecting and mobilizing the best, so that we can all compete internationally.
3. Because it is essential to systematize, develop and promote know-how into the Sector to make it more competitive.
4. Because it is necessary to evaluate and recognize the quality of the service provided by operators.
5. Because it is a Sector with a remarkably high job creating index and potential professional growth.
6. Because this sector is a market niche in which Portugal can become internationally competitive.
7. Because we want to create wealth for our Country.

We believe your Organization will seize the opportunity of joining a group of Companies that mean to be distinctive and to influence the development of Contact Center activities in Portugal.

We look forward to receiving your membership registration.

Best Regards,
Ana Ferrada
